# BEHAVIOUR SUPPORT

## PURPOSE

This policy provides guidelines for Pinemont Pre-School to:

- encourage children to achieve success
- develop positive self-esteem
- reduce challenging behaviours and
- provide a safe and healthy work environment.

## POLICY STATEMENT

### VALUES

Pinemont Pre-School is committed to:

- providing each child with positive guidance and encouragement toward developmentally appropriate behaviour
- encouraging children to express themselves and their opinions
- children undertaking experiences that develop self-reliance and self-esteem
- maintaining the dignity, agency and rights of each child at the service
- considering the diversity of children at the service, including family and cultural values, age, gender, and the physical and intellectual development and abilities of each child
- encouraging positive, respectful and warm relationships between children, families and educators/staff at the service
- the health, safety and wellbeing of each child and staff, and providing a safe, secure and welcoming environment.

### SCOPE

This policy applies to the approved provider, persons with management or control, nominated supervisor, persons in day-to-day charge, early childhood teachers, educators, staff, students, volunteers, parents/guardians, children, and others attending the programs and activities of Pinemont Pre-School, including during offsite excursions and activities.

| RESPONSIBILITIES | Approved provider and persons with management or control | Nominated supervisor and persons in day-to-day charge | Early childhood teacher, educators and all other staff | Parents/guardians | Contractors, volunteers and students |
|---|---|---|---|---|---|
| **R** indicates legislation requirement, and should not be deleted | | | | | |

| | | | | | |
|---|---|---|---|---|---|
| Developing and implementing the *Behaviour Support Policy* in consultation with stakeholders, and ensuring that it reflects the philosophy, beliefs and values of the service | √ | √ | √ | | |
| Ensuring that all staff are aware of the service's expectations for positive, respectful, and appropriate behaviour, including acceptable responses and fostering warm, trusting, and reciprocal interactions when working with children and families *(refer to Code of Conduct and Interactions with Children Policy)* | √ | √ | √ | √ | √ |
| Ensuring children are adequately supervised *(refer to Definitions)* and that educator-to-child ratios are maintained at all times *(refer to Supervision of Children Policy)* | R | R | √ | | √ |

## BACKGROUND AND LEGISLATION

### BACKGROUND

From infancy, children embark on a journey to comprehend the workings of the social world, involving the intricate process of exploring and managing emotions, behaviour, rights, and responsibilities. Educators, through positive and respectful daily interactions, contribute significantly to supporting children in regulating their behaviour. These interactions serve as a foundation for instilling a sense of interdependence and nurturing considerate citizenship in children. As a result, children acquire the confidence and skills needed to autonomously manage their behaviour, make decisions, and foster positive and effective relationships with others.

Challenging behaviours in children may stem from age-appropriate actions, attempting to meet needs, or expressing unmet desires. Environmental factors play a role, and supportive conditions contribute to children's well-being. Positive adult role models help children learn socially acceptable behaviour, and support is crucial for children to express needs appropriately. A positive learning environment minimises challenging behaviours.

To guide children in learning self-regulation, it is imperative for educators to recognise that these skills evolve gradually and exist on a continuum. The application of these developing skills in children can vary based on factors such as mood, health, family circumstances, and challenging situations they encounter.

The approved provider has a duty under the *Occupational Health and Safety Act 2004* to eliminate risks to health and safety of workers and other persons so far as is reasonably practicable. If it is not reasonably practicable to eliminate risks, they must be minimised so far as is reasonably practicable. This means approved providers must do all that they reasonably can to manage the risk of behaviour aggression *(refer to Definitions)* occurring at the workplace.

Behaviour aggression *(refer to Definitions)* can have significant short- and long- term impacts on a person's physical and psychological (mental) health. It's not just violent incidents like physical assault which can cause harm - being exposed to lower level but frequent forms of aggression, like yelling, name calling and challenging behaviours, can also have a lasting effect on a person's health.

### LEGISLATION AND STANDARDS

Relevant legislation and standards include but are not limited to:

- Education and Care Services National Law Act 2010
- Education and Care Services National Regulations 2011
- Equal Opportunity Act 2010 (Vic)
- National Quality Standard, Quality Area 5: Relationships with Children
- Occupational Health and Safety Act 2004
- Occupational Health and Safety Regulations 2017

The most current amendments to listed legislation can be found at:

Victorian Legislation – Victorian Law Today: www.legislation.vic.gov.au
Commonwealth Legislation – Federal Register of Legislation: www.legislation.gov.au

The terms defined in this section relate specifically to this policy. For regularly used terms e.g. Approved provider, Nominated supervisor, Notifiable complaints, Serious incidents, Duty of care, etc. refer to the Definitions file of the PolicyWorks catalogue.

**Behaviour Aggression**: involves incidents in which a staff member is physical or verbally abused or assaulted by a child in their care. This definition covers a broad range of actions and behaviours that can create a risk to the health and safety of employees and other persons in the workplace.

Examples of behaviour aggression can include, but not limited to:

- biting, spitting, scratching, hitting, kicking, choking
- pushing, shoving, tripping, grabbing, slapping
- screaming, punching, swearing
- throwing objects.

**Behaviour guidance:** a means of assisting children in positive and effective ways to help children gain understanding and learn skills that will help them learn to manage their own behaviour.

**Behaviour guidance plan:** A plan that documents strategies to assist an educator in guiding a child with diagnosed behavioural difficulties or challenging behaviours to self-manage their behaviour. The plan is developed in consultation with the nominated supervisor, early childhood teachers, educators, parents/guardians and families, and other professional support agencies as applicable.

**Challenging behaviour:** behaviour that can be described as:

- infringing on the rights of others
- disrupting others or causing disputes between children
- causing harm or risk to the child, other children, adults or living things
- is destructive to the environment and/or equipment
- inhibits the child's learning and relationship with others
- a chid presenting as shy, withdrawn or excessively passive in a way which is inhibiting their learning and/or development
- is inappropriate relative to the child's developmental age and background.

**Frightening methods of control:** Disciplinary or authoritative techniques that instil fear, intimidation, or distress in individuals as a means of regulating their behaviour or actions. These methods often rely on threats, aggression, coercion, or the imposition of negative consequences that evoke fear or anxiety in the individual being controlled. Examples may include yelling, physical punishment, verbal abuse, humiliation, or any other form of coercion that induces fear or distress in order to manipulate behaviour. Such methods are generally considered harmful and ineffective in fostering healthy relationships and promoting positive behaviour development.

**Inclusion Support Program (ISP):** assists children with additional needs to participate in early childhood education and care (ECEC). It does this through tailored support and funding to ECEC services.

ISP supports services to:

- address barriers to inclusion
- build capacity and capability to include children with additional needs
- implement quality, inclusive and equitable practices.

The program aims to:

- provide children with additional needs the opportunity to learn and develop next to their typically developing peers
- ensure all children have genuine opportunities to access, participate and achieve positive learning outcomes. For more information visit: https://www.education.gov.au

**Kindergarten Inclusion Support Program (KIS):** Supports funded kindergartens to plan and implement a program that is responsive to the individual abilities, interests and needs of children with a disability, developmental delay or complex medical needs.  Long Day Care services can apply for the KIS program for their Victorian Government-funded kindergarten programs. If a KIS funded additional assistant is allocated to

the kindergarten as the result of a KIS application, they will work as a member of the team delivering a kindergarten program that is inclusive of all children in the group.  The KIS funded additional assistant should not work exclusively with the child identified in the KIS package application and is above ratio requirements. Not used to meet ratio requirements.

**Program Support Groups (PSG):** A program support group brings together key people to support the inclusion of children with disability or developmental delay, or complex medical needs, from the time of enrolment at kindergarten until they move to school. The group may include:

- the early childhood teacher
- the child's parent/guardian(s)
- early childhood intervention professionals
- a preschool field officer
- medical practitioners, therapists or other allied health professionals
- a support person – if the child's parent/guardian(s) chooses to use one.

**Preschool Field Officer (PSFO) Program:** supports the access and participation of children with additional needs in their kindergarten program. For more information visit: www.education.vic.gov.au

**School Readiness Funding (SRF):** Integrated within the Victorian kindergarten funding structure, SRF allocates resources to various programs and assistance measures aimed at bolstering the capabilities of services, educators, and families in fostering children's learning and development. Designed to provide supplementary support for kindergarten services, SRF endeavours to enrich kindergarten programs and offer tailored assistance to children, particularly those facing educational disadvantage, ensuring they start school developmentally on track. Educational disadvantage describes the challenges faced by children due to economic, cultural or social circumstances that limits their access to, or engagement with, education. Within the framework of SRF, kindergarten services are empowered to utilise allocated funds across three principal outcome domains: Communication (fostering language development), Wellbeing (enhancing social and emotional aspects), and Access and Inclusion.

## EVALUATION

In order to assess whether the values and purposes of the policy have been achieved, the approved provider will:

- regularly seek feedback from everyone affected by the policy regarding its effectiveness
- monitor the implementation, compliance, complaints and incidents in relation to this policy
- keep the policy up to date with current legislation, research, policy and best practice
- revise the policy and procedures as part of the service's policy review cycle, or as required
- notifying all stakeholders affected by this policy at least 14 days before making any significant changes to this policy or its procedures, unless a lesser period is necessary due to risk *(Regulation 172 (2))*.

**PLEASE NOTE:**
• The committee is responsible for approving any changes to this policy
• The staff of Pinemont Pre-School are responsible for raising issues in line with this policy

## ATTACHMENTS
- Attachment 1: Guidance Strategies for Teachers

## AUTHORISATION

This policy was adopted by the approved provider of Pinemont Pre-School on 13/05/2024.

**REVIEW DATE:** 13/05/2025

All children need a safe and secure environment and positive interactions with peers and adults. Encouraging positive behaviour in all children and ensuring that all children are respected and valued as individuals.

Pinemont Pre-school is committed to:
- Respecting the importance of positive interactions and relationships between children, families, staff and committee
- Acknowledging that children have the same rights as adults and recognising the diversity that exists in everyone
- Protecting children from aggression by providing them with a safe and secure environment, and the opportunity for positive and respectful interactions with adults and other children
- Recognising that children's behaviour reflects their level of development and is influenced by a range of factors
- Providing a learning environment that supports the growth, wellbeing and development of the whole child
- Respecting cultural practices and beliefs and working in partnership with parents/guardians and other professionals with issues relating to the guidance of a child's behaviour
- Encouraging children's learning in identifying their own rights, needs and feelings with those of others, to interact effectively and, in doing so, to gain an understanding of empathy
- Engaging only in practices that are respectful of, and provide security for, children and that in no way degrade, endanger, exploit, intimidate or harm them psychologically or physically
- Reflecting the values, attitudes and current recommended strategies that promote positive behaviours.

# GUIDANCE STRATEGIES

### Social environment

Children who play and learn in an environment which promotes positive social relationships are less likely to display inappropriate behaviours. Positive relationships are developed when staff members and family day carers:
- establish positive relationships with children
- empower children to use language and other forms of non-hurtful communication to communicate their emotions
- promote positive, empathetic relationships between children assisting them to develop respectful relationships
- encourage and assist children to make decisions for themselves and provide opportunities for independence and self-regulation
- provide clear and reasonable limits so that children know what is expected of them and follow through to help them abide by the limits
- model appropriate behaviours
- provide positive feedback and focus on children's strengths and achievements and build on their abilities
- be understanding and supportive – acknowledge children's emotions
- help children develop a sense of social responsibility, so that they become aware of the impact of their actions on others
- promote children's initiative and agency
- discuss guidelines, rules, limits and what is fair with children, and use their contributions in setting limits and guidelines.

**Physical environment**

Children who are engaged and active are less likely to display challenging behaviours. The physical environment needs to provide developmentally appropriate materials and equipment so that children do not become bored or frustrated, which is likely to result in challenging behaviour. To make sure that children are engaged it is important to:
- provide interesting and age appropriate equipment and materials
- make sure that there are plenty of opportunities for outdoor play
- set up the environment so that children can engage according to their abilities and interests
- provide sufficient materials and equipment
- balance children's need for sameness and variety by making appropriate changes to the environment and materials and equipment in it
- model care of equipment and materials and help children learn to care for them
- limit the number of children in areas appropriately
- give children opportunities for independent and solitary play
- arrange the environment so that there is easy movement within and between areas
- set up environments that give children choices about working and playing alone, with one or two other children, or being part of a larger group and that support engagement and concentration
- make sure that there is enough space overall so that children have choices about being together.

**Program structure**

In planning the educational or recreational program for the children, consider the following:
- the way routines or transition times are planned so that they are relaxed and children are not rushed
- allow for flexible routines, e.g. allowing a child to eat when they are hungry
- maximise choices throughout the day. For example, if there are children who do not sleep during rest time provide them with a choice of quiet activities that they can participate in
- provide for many child initiated experiences
- organise the day into big 'chunks' of time, so that children have sufficient time to engage in experiences.

## GUIDING CHILDREN'S BEHAVIOUR

Pinemont Preschool will have a range of behaviour guidance strategies that help children learn to guide their behaviour. These strategies are ways of guiding behaviour and are to be used consistently by all staff members involved with the child.
The aim is for children over time to rely less on adults to guide them as they develop their own self-control and understand what acceptable behaviour is. With this aim in mind, the following points may assist in developing behaviour guidance strategies:
- establish positive relationships, which are the foundation for building children's self-respect, self-worth and feelings of security
- observe children to identify triggers for challenging behaviours.
- Pay attention to the child's developmental level and any program issues that may be impacting on the behaviour
- use positive approaches to behaviour guidance. Some of these include positive acknowledgement, redirection, giving explanations, encouragement, giving help, collaborating to solve problems and helping children to understand the consequences and impact of their behaviour
- support children by providing acceptable alternative behaviours when challenging behaviour occurs
- ensure limits are consistent, carried out in a calm, firm manner, followed through and that children are helped to behave within the limits
- involve the family and the child in appropriate ways in addressing challenging behaviour
- use other professionals when necessary to help with behaviour guidance, for example, the Preschool Field Officer (PSFO) or the Inclusion Support Facilitator (ISF)
- identify children's strengths and build on them
- seek support from other staff members or family day carers and management

**Some questions that may be helpful for staff in responding to children's behaviour are:**

- What are the possible causes for the behaviour?
- Would the behaviour be addressed by the child developing some new skills?
- Is the behaviour appropriate for the child's age or developmental level?
- What is the goal of the behaviour? e.g. What is the child trying to communicate?
- Is the environment or the program contributing to the behaviour?
- What are my expectations about appropriate behaviour? Are they suitable in the circumstances?
- Are my interactions contributing to the behaviour?
- Are there triggers for the child's behaviour? What happened before the behaviour occurred? Are there times or situations when the behaviour is more likely to occur?
- Is there a change in the child's life that is affecting her or his behaviour?
- Do I need to seek assistance from another professional or engage or seek external support?
- Are all staff members aware of the approach to behaviour guidance and consistent in using the approach?

**Consulting and referring with other professionals**

Children's services may have access to a range of existing supports where referral for intervention is requested by staff members or family day carers.

When professionals from other support services become involved in assisting with a behaviour guidance program for a child, it is important that this is done in collaboration with staff members and parents. This gives everyone the opportunity for input and information about the strategies and expectations that are developed.

**Additional support services**

After evaluating a child's behaviour, discussing the situation with parents and the child where appropriate, and trying a range of strategies, the service may wish to consider consulting with and/or engaging support professionals. Parental permission would be needed in this instance.

Some early intervention professionals who will be of assistance are:

- Early Childhood Intervention Services (ECIS)
- Preschool Field Officers (PSFO)
- Inclusion Support Facilitators (ISF)
- paediatric services
- other health professionals such as psychologists,
- speech pathologists, or occupational therapists
